

HP DesignJet T870 24-in Printer

The world's easiest multi-size printing experience¹ for posters and CAD drawings

*Product image may differ from actual product

VERSATILE—Effortless, high-quality results across sizes and formats

- Print it all—from renders and CAD drawings to educational posters and durable retail signage, you'll see high-quality results across print sizes with pigment-based HP Flex Tech Inks.
- Easily print multi-size A4/A to A1/D projects using the integrated input tray, without manually changing from roll to sheet.
- Stay focused—print A1/D-sized plots in as fast as 21 seconds² and experience fewer ink interruptions with 130/300 ml cartridges.

CONNECTED—Seamless and secure by design

- Simplify printing with HP Click³—available as a driver and app. Save time with real-print preview and automatic error detection.
- Protect your printer and data from cyberthreats without any effort thanks to HP Wolf Pro Security.

SUSTAINABLE—Save energy⁴ and minimize waste^{5,7}

- Invest in a compact, robust printer made with at least 45% recycled plastic and 10% recycled metal.⁵
- Lower energy use by up to 60% with automatic on/off scheduling⁴, and use up to 95% less ink⁶ during printhead cleaning routines.
- Reduce plastic waste with 100% polystyrene-free packaging⁷ and recycle your HP cartridges through HP's Planet Partners program.⁸

Messaging Footnotes

¹ Based on test results using HP Click with the HP DesignJet T870. This solution enables printing in fewer steps compared to main competitor printing solutions. Printing a 5-page mixed job set with A1 and A3 takes 3 steps using HP Click vs. 11 steps with competitor A and 8 steps with competitor B. Testing performed by Sogeti, July 2025. Detailed test report is available upon request.

² Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (bond) and Original HP Inks.

³ HP Click App is compatible with Windows and Mac. HP Click Driver is compatible with Windows 11 only. HP Click software is only compatible with Original HP Ink supplies. Applicable to PDF, JPEG, TIFF, DWF, and HP-GL/2 files.

⁴ The percentage reductions in energy consumption are based on tests conducted by HP, 2024. Data based on the implementation of auto-scheduled on/off usage in various printer models, measured on a monthly basis. Actual savings may vary depending on the specific usage patterns, printer models, and environmental conditions.

⁵ The HP DesignJet T870 is crafted with at least 45% recycled plastic and 10% recycled metal. Recycled plastic is based on total plastic weight, with post-consumer recycled content defined by the EPEAT standard for imaging equipment (IEEE 1680.2). Recycled metal is based on total metal weight used in the product.

⁶ Test commissioned by HP and conducted by Sogeti in May 2025, comparing the HP DesignJet T870, Canon TM-255, and Epson SC-T3405 in terms of ink consumption during routine printhead cleanings.

⁷ The HP DesignJet T870 Printer has replaced EPS with molded pulp cushions made from recycled fiber-based material.
